** ARGENTINA. 28350 USB, Oct 13 at 2207, LU5AQY working KN6IYC. QRZ.com: ``LU5AQY Argentina flag Argentina, JUAN CARLOS COUMET, FERNANDEZ MORENO 1782 8 92, CIUDAD DE BUENOS AIRES CF 1406, Argentina`` (Glenn Hauser, OK, WOR)

** ARGENTINA. 28480 USB, Oct 13 at 2210, LU3HPS in Italian working a VE3. QRZ.com: ``LU3HPS Argentina flag Argentina, Pierangelo "Piero" Siddi, Whatsapp : +5493544312500, San Javier - Yacanto, Cordoba {sic} 5875, Argentina`` (Glenn Hauser, OK, WOR)

** ARGENTINA. 28497 USB, Oct 13 at 2211, LU5AB calling CQDX 10. At first thought it was LU5OB - Oscar sounds too much like Alfa. QRZ.com: ``LU5AB Argentina flag Argentina, FABIAN HECTOR (IAN) GOMEZ, Gral FRUCTOSO RIVERA 6559 3º PISO, CIUDAD AUTONOMA DE BUENOS AIRES 1439, Argentina`` - and there is no LU5OB in QRZ.com (Glenn Hauser, OK, WOR)

** ARGENTINA. 28315 USB, Oct 14 at 2218, LU8AAV. QRZ.com: ``LU8AAV Argentina flag Argentina, GUILLERMO MARIANO "Mariano" MORENO, Tandil 6885, Ciudad Autónoma de Buenos Aires ( Capital Federal ) 1440, Argentina`` - lots more phone activity on 10m from SAm, Japan (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Oct 9 at 0150, token English from RNA/RNB, S9/+10 into Bonaire SDR, and JBA if any on 6180 (Glenn Hauser, OK, WOR)

** BRAZIL. 28460 USB, Oct 11 at 2214, PY3PZ, CQDX in Portuguese, English. QRZ.com: ``PY3PZ Brazil flag Brazil, PAULO ROBERTO NEVES BARBOZA (PY3PZ), P.O. BOX 86, São Gabriel RS - CEP 97300-970, Brazil -- lots of photos of family and pets (Glenn Hauser, OK, WOR)

** BRAZIL. 28335 USB, Oct 13 at 2205, PU1JSV in Rio de Janeiro working Parks OTA contest. QRZ.com: ``PU1JSV Brazil flag Brazil, Jose {sic} Silva, Rua Jorge Luiz 7, Rio de Janeiro, RJ 21044540, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28420 USB, Oct 13 at 2208, PY2JY. QRZ.com: ``PY2JY Brazil flag Brazil, Fernando Masseli Helene, Avenida João Franceschi, 3811 - Jaú - São Paulo, Cond. Jardim Alvorada, SP 17210381, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. 346 MCW kHz, Oct 9 at 0620 UT, dash and YXL, 1000-watt NDB at Sioux Lookout ON, JBA. A good indicator of normal vs auroral conditions when it doesn`t make it, but the most reliable of the Canadians now. 1597 km = 992 miles (Glenn Hauser, OK, WOR)

** CANADA. 346 MCW kHz, Oct 14 at 0646 UT, dash and YXL, Sioux Lookout ON, only Canadian MW beacon making it as usual (Glenn Hauser, OK, WOR)

** CANADA. 24927 CW, Oct 13 at 2215, EEEEE VVV VVV VVV DE VA3KAH/B, yes, a beacon on 12 m! QRZ.com: ``VA3KAH Canada flag Canada, Ian Douglas Baines, 33 Faircrest Blvd, Kingston, ON K7L 4V1, Canada.

Kah-She Island - In Georgian Bay, Ontario (one of the Great Lakes) - The little Island heard around the world. EN95WC. Amateur radio station VA3KAH is located on Kah-She Island in Georgian Bay, Ontario. Four continuous CW radio beacons are located on the island, on 44, 22, 12, and 10 meters. The beacons operate 24 / 7 and are unattended from November to May. The Beacon Stations:

Thanks to its location far from shore in one of the Great Lakes, Kah She Island is considered an exotic beacon location and is highly

prized by listeners from around the world. We try to provide propagation information by operating a number of micro-power to higher powered beacons on several bands. These include:
44 m 6783.4 MHz in the ISM band "VA3KAH/B" (dipole @ 18')
22 m 13566 MHz in the ISM band "KAH" (vertical @ 12')
12 m 24927 MHz 50 watts output (dipole at 32')
10 m 28168 MHz 10 watts output (vertical @ 48')

A Bit About Our Island Location...``
https://www.qrz.com/db/VA3KAH?aliasFrom=VA3KAH/B
with lots of nice photos. Previously heard on 28168 CW, June 19, 2025 at 1551. 10m is also full of beacons now, but I concentrate on logging some deep SAm phones from Argentina, Brazil (Glenn Hauser, OK, WOR)

** CANADA [and non]. 28170 CW, Oct 14 at 2204, VVV DE VA3XCD/B thrice. WGB list: ``28170.0 VA3XCD/B - Camden East ON CAN FN14nj - #0 (17 Apr 2025) Note: VVV de ID + Camden East + grid - pwr 1.5w`` - QRZ.com: ``VA3XCD Canada flag Canada, William G Pooley, 400 DEWEY ROAD RR3, YARKER, ON K0K 3N0, Canada`` Lots more beacon activity including too close 28171 XE1FAS which WGB will not list (Glenn Hauser, OK, WOR)

** CHINA. 21800, Oct 9 at 1404, JBA carrier with heavy Doppler flutter, presumed CNR1 jammer of SOH. Is from western China / East Turkistan, to propagate now and thus? (Glenn Hauser, OK, WOR)

** CUBA. 15140, Oct 9 at 1406, RHC music undermodulated with squeal, S9/+15. At 1407, 15230 is S7/S9 in dead air; at 1409, 11760 S8/S9 music OK modulation; SAWA (Glenn Hauser, OK, WORLD OF RADIO 2316)

** CUBA. 15230, Oct 10 at 1413, S4/S6 of dead air from RHC. No signals on 15140 or 11760, but 13780 has S5 JBA music. By 1415, however, 11760 has cut on with S7/S8 music // weaker 13780. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, Oct 10 at 1930 RHC English is on, poor with squeal into Maryland SDR; but gone by 1936 this 19-20 program. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 6000, Oct 13 at 0509, RHC S9+30/40 but suptorted Spanish ID; not on any other known frequencies (Glenn Hauser, OK, WOR)

** CUBA. 15140, Oct 13 at 1531, RHC TC, ``exactamente las 11 y 30`` -- not! with usual squeal, no other frequencies on (Glenn Hauser, OK, WOR)

** CUBA. 11760, Oct 13 at 2219, S9/+10 of deadair in Spanish from RHC, no 13, 15, or 9 MHz frequencies. Something`s always wrong at RHC. Also:

5990, Oct 13 at 2321, S9+10/15 of dead air instead of China English relay;
13650, Oct 13 at 2322, S7/S9 of dead air instead of music instead of CRI Portuguese relay. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11760, Oct 14 at 2202, RHC Spanish here but nothing on 13780; 15230 is S9/+10 but suptorted JBM peaks only. At 2216, 11950 also on S9/+10 // 11760. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13780, Oct 15 at 1455, weak signal, finally recognizable as Spanish, so must be RHC, but unseems // much stronger 15140 & 11760. Out of synch? By 1605, only 11760 on air, VG S9+5 into Miramar FL SDR (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, 11930, 11860, Mon Oct 13 at 1637, R. Martí/LV del Trumpismo blasting in to Ft Lauderdale remote, much weaker here, but not on an hour earlier, still starting at 1600 (Glenn Hauser, OK, WOR)

** CUBA [non]. 7335, Oct 13 at 2325, R. Martí, LV del Trumpismo, continues off air evenings, but JBA carrier: EiBi & Aoki show CNR2 via Baoji/Sifangshan, Shaanxi site until 0030 (Glenn Hauser, OK, WOR)

** CHILE. 28510 USB, Oct 10 at 2217, CE5VKK calling CQ DX in English. QRZ.com: ``CE5VKK Chile flag Chile, Boris Monares, Avda. 101 Condominio 1777, Casa 6, Concepción 4030000, Chile`` -- Several other deep S Americans including:
28419 USB, Oct 10 at 2214, CE4MV calling CQDX 10 m QSL? in English - but not listed at QRZ.com nor reached by broad search. Rather sure of call given fonetikaly (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 15410, Oct 9 at 1408, Chinese talk and music mixing, S9, but maybe so in original programming rather than jamming vs victim, S9 direct. Aoki shows CRI in Mandarin from Kashi-Saiba this hour only; the radio war only until 1400 (Glenn Hauser, OK, WOR)

** EGYPT. Re: ``9440, Oct 7 at 2115 and after 2200, no signal from R. Cairo sesquihour in English. How long has it been since anyone heard it, even dead air? At least other stations courteously keep it clear, China between 2100 & 2300; BBC not on until 2200. The A25 mostly? imaginary R. Cairo sked:
https://new.hfcc.org/data/schedbybrc.php?seas=A25&broadc=ERU
All are on 9 MHz band, no doubt an antenna limitation. Any of the others ever heard? (Glenn Hauser, OK, WOR)``

Alexander Miatlikov, Ukraine replies: ``Regularly heard in Russian at 19-20 UTC on 9890 kHz, with some 70% of words understandable.``

Well, no signal on 9890 when I check Tambov SDR at 1921 Oct 12 (Glenn Hauser, WOR)

** JAPAN. 28555 USB, Oct 14 at 2208, JG1OUT, ``near Tokyo``, American accent. QRZ.com: ``JG1OUT Japan flag Japan, MITSUYA "MAC" TAMAKI, 1900-11 Oninosensui Kanbara Tsumagoi Village, Agatsuma-gun Gunma 377-1402, Japan`` (Glenn Hauser, OK, WOR)

** KURDISTAN [non]. 11530, Oct 10 at 1414, militaristic music, presumably Turkish jammer, S7/S8, but no sign of target Denge Gel between 11500/11550, unless totally buried on 11530, unlikely (Glenn Hauser, OK, WOR)

** MEXICO [and non]. 570, Oct 12 at 0150, Mexmx; where`s KLIF? Very likely XEBJB Monterrey NL, 5000/500, 24h, per IRCA Mex Log; of three other 570s, two silent, leaving XEOA Oaxaca, unlikely. Then at 0633 UT I`m hearing only KLIF Dallas ID in promos. NRC AM Log shows *no* USSS on 570 (Glenn Hauser, OK, WOR)

** MEXICO. 970, UT Mon Oct 13 at 0501, a Mexican anthem following `La Hora Nacional` not the national, with ``chihuahuense`` in lyric, so surely XEJ CiJz as usual, 1/1 kW -- except IRCA Mexican Log shows another in same state, XESW, Ciudad Madera, 5 kW day, unknown night power until 0400, hardly ever reported but Tim Hall had it almost a year ago on typo frequency 980 (Glenn Hauser, OK, WOR)

** MEXICO. 28171 CW, Oct 12 at 2208, XE1FAS/B and four step-down? beeps. Still not in WGB list; last logged March 31, in Puebla; see https://www.qrz.com/db/XE1FAS -- ``XE1FAS Mexico flag Mexico, SEGURA WALLS ALEJANDRO, 31 PONIENTE 2926 COL.EL VERGEL, PUEBLA, PU

72410, Mexico -- 28.171, 15 WATTS, LOOP ANTENA TRIBANDER, OPERATED INTERVAL 20 SECONDS, 2260 MTS HIGH`` (Glenn Hauser, OK, WOR)

** OKLAHOMA. 773 kHz, Oct 10 at 0619 UT, JBA carrier goes off as I turn off the TV set, confirming its local origin. Turned back on, the frequency swishes around a bit before settling on 773 (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1230 kHz, Oct 9 at 0605 UT, my closest, WBBZ Ponca City, manages to stay atop the graveyard pileup, ``Hometown Radio, WBBZ``. Not a slogan in NRC AM Log, rather ``Sunny 1230``. Kraig Krist`s exhaustive MW slogan list shows: ``1230 WBBZ OK Sunny 1230; Oklahoma's Legendary AM 1230; 1230 News Talk``. I haven`t listened enough to decide whether it`s one, the other or the other. radio-locator calls it ``Newstalk 1230``. Linked website
https://www.poncacitynow.com/wbbz
also labeled Newstalk 1230. Year-by-year history until 2015:
https://www.poncacitynow.com/wbbz/history/
starts with:

``1927 – Charles Carrell was a pioneering theatrical and radio entrepreneur. He owned a theatrical booking agency in Chicago and in New York. Once he heard his first radio broadcast, he was hooked. He applied for and was granted licenses for ten portable stations, and arranged their financing. WBBZ was not one of the original groups, but Carrell acquired it while it was located in Indianapolis. The call letters, WBBZ, were derived from a slogan used to identify Indianapolis – World’s Busiest Business Zone. All stations in the U.S. at that time began with the letter “W”.

For a time, WBBZ toured the country with the Redpath Chautauqua circuit, presenting programs of professional talent. Frequently, local talent was highlighted along with the professional groups. Harry Kyler managed one of the original ten stations for Carrell, WIBW in Topeka, Kansas. From Indianapolis, he took WBBZ to the Broadview Hotel in Wichita. Then, in 1927, Kyler brought the station to Ponca City for a week-long test run at the Poncan Theatre. Kyler, impressed by Ponca City, suggested to Carrell that a station be located here permanently...`` (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1062.88 & 1352.74, Oct 9 at 0610 UT, the TV set closest to my NRD 545 puts considerable carriers on these frequencies when turned on; they are 289.86 kHz apart. Is that a significant frequency in TV set circuitry? At 1832, local mean noon Oct 9 I add and subtract to check for other MW spots: yes, there they are at 1642.60 --- and much weaker 773.02! So THAT explains the JBA non-TA carrier I have been getting on 773. Next time if the TV be on, I`ll turn it off to make sure. Next down would be 484.16 kHz, but nothing audible there. The TV set is an Element, model ELEFW328, made in where else CHINA and claims to be Part 15 compliant (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1680, Oct 15 circa 2010 UT, Virtual DJ Radio relay carrier still on and audible at hotspot of US412/81 junxion, but dead air or possibly JBM. Until now it had been extremely reliable whenever checked (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 89.7, Oct 9 circa 1540 UT, The House FM, usually $tereo, is mono into caradio. Its strongest signal here, I thought this was the originating station, but comparing to 88.5, with Stereo icon, is running about 8 seconds ahead of 89.7. WTFDA FM DB does show 88.5 KZTH Piedmont OK 50 kW as relay of KJTH 89.7 Ponca City 100 kW, not vice versa! (Glenn Hauser, Enid, WOR)

** POLAND [non]. 5850, Oct 10 at 0716 `News from Poland` via WRMI, also seems // on much weaker 7570, 7730, 7780. WRMI xmtr sked shows:

WRN 0700-0800 System E, on all those plus 15770, JBA too weak to tell; and WRN sked shows PRES daily. But System E grid at 07-08 shows also 5800, 5950, 9455, 9955 which are not really on air and omits 7780. Something`s odd at Okee (Glenn Hauser, OK, WOR)

** POLAND [non]. 17790, Oct 10 at 2159.5, WRMI chops off gospel huxter for ID, 2200 opening PRES in English from WRN, S9+20/30 direct, chops that off at 2202.2*. Something`s odd at Okee (Glenn Hauser, OK, WOR)

** POLAND [non]. 17790, Oct 13 at 2159.5, WRMI chops off gospel huxter in progress for ID, pause, at 2200 PRES via WRN opening until it`s chopped off at 2201*, an affront to all concerned, two programmers and all listeners. Note that from Oct 15, Taiwan says its Spanish broadcast at 0100 will change from 5800 to 17790, not mentioning WRMI - so will it come back on at 0100 or stay on from 2200+? (Glenn Hauser, OK, WOR)

** PUERTO RICO. 391 MCW kHz, Oct 9 at 0622 UT, DDP, 2 or 3 kW ND beacon at DoraDo airport of San Juan. Perhaps I shall eventually quit relogging it, but still enjoying is reaudibility after months unheard. 3676 km = 2284 statute miles (Glenn Hauser, OK, WOR)

** PUERTO RICO. ``You also mentioned hearing 391 DDP in Puerto Rico. Some NDBs have a backup transmitter, which DDP does, and it periodically switches to the backup TX. It's been on the backup past 6 weeks or so, and that one is unique with its +/-650 Hz offsets compared to the normal TX's +/-1030 Hz. So the backup is all by itself if one uses CW mode and a 500 Hz or smaller IF filter. For me, the +650 side is always stronger, I don't know why, but I hear it better than the -650 side. (Tuning to 391.650 kHz.) 73, Steve AA7U`` Ratzlaff -- wonder what the powers are of the two (Glenn Hauser, OK, WOR)

** ROMANIA. 11800, Oct 15 at 2159, surprised to hear RRI IS, weak direct; English at 2200 had been on 9740 in A-season, too low for us in summer and intended only for W Europe, but no trace of that now. At 2240 into UTwente, 11800 is only VP, and no 9740. RRI website claims this transmission be on 9740 only: they can`t even convey own schedule accurately; something`s botched at Bucharest. HFCC shows both registered, Galbeni, 300 kW at 300 degrees; as alternates? Or in better times, both (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Oct 10 at 2201, REE is S6/S9 JBA direct with Doppler flutter, quite disturbing for a path so far southwest and low-latitude from Europe. We can hardly wait for B25 season and lower frequencies: N American would be on 9690 except that transmitter has been silent on 15500 for months of A25 (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Oct 14 at 2158, REE Spanish with wrong! schedule announcement for previous, or next? B-season including 12030 for ME, 9690 for NAm! - We hope. Meanwhile the only other frequencies really on are as usual much weaker 15520 & 15390, never 15500 (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Wed Oct 15 at 2200, weekly English from REE, S9+10/20 direct on SAm channel, still no 15500 for NAm, and other two much weaker, 15520 & 15390. Marilyn Quintana, still sola, claims she is ``live`` but that was at 10 UT; preview topix women`s rights, women in gastronomy? or astronomy?; 2202 news of the week. By 2205 has already faded down to S9/+10, too weak (Glenn Hauser, OK, WOR)

** TAIWAN [non]. 17790, Oct 14 at 2159, WRMI gospel huxter allowed to wrap with USA address before ID, and: 2200 tone, and s/on R Taiwan Intl in Spanish! and is // 15770 where it`s been. Previously, 17790 had been starting a bit of Poland in English via WRN before chopoff. Now 17790 stays on with RTI, and by 2232 something else, gospel huxter

in accented English and not // 15770. RTI had been publicizing change to 17790 at 0100, not 2200! as of Oct 15 (Glenn Hauser, OK, WOR)

** TAIWAN [non]. 17790, Oct 15 at 2206, RTI in Spanish via WRMI and again // 15770, good on both (Glenn Hauser, OK, WOR) See also USA

** TURKEY. 11785.025, Oct 10 at 2158, VOT IS & ID VP direct S9+15/20. At 2240 into UTwente when measured, further off than usual, S7/S9 music, else? 2254 JBA s/off sounder and announcement JBA, 2255 IS and shortly off* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.018+, Sat Oct 11 at 2217, VOT English not off the air, S9+10/20 direct but insufficient vs noise level. Into UTwente normally much better but not this time at 2233 when measured, only poor S7/S9. 2254 s/off as if 17620 at 1230, awry at Ankara; 2255.5 IS for a bit and off* (Glenn Hauser, OK, WOR)

** TURKEY. 9750, Sun Oct 12 at 1843, VOT English VG S9+10/15 into Carlow, Ireland SDR as UTwente is inaccessible, starting `The Pulse of Turkish Foreign Policy`. 1851 music, 1855 multi-lingual ID filler reel, 1858 music; 1902 finally start `Letterbox`. Cemre says those in the English dept. have been very busy past 3 weeks as they are now responsible for editing Turkish news for the other language departments. Cemre has also passed a ham radio test adequately, but not active yet, no call mentioned. 1) Anatoly Klepov, Moscow, wants QSL for October as he requests every month. 2) at 1906, Jayanta Chakroborty, New Delhi, sent two reports for 7275; she never remarx that he is always listening to the NAm service off the back rather than the 6 MHz frequency aimed at India. 3) at 1909, Chris --, Port Alberni, BC, Canada, what do Turx have for breakfast? She says it`s a big deal, not a quickie, especially on weekends, such as: white bread with sesame, white cheese, tomato, cucumber, olives black and green, butter, honey, jams, tea; sometimes eggs; spicy sausage or cube? beef, can last 2-3 hours, a social event, always ends with coffee as the word literally means ``before coffee``. 4) 1919, Ricky Hein wants new frequency sked ASAP. 5) 1913, Maxim? --?, Leipzig, Germany reports on a German broadcast. Has vinyl record of some Turkish musician, or someone who promoted Turkish music, name sounded like Boris? 1918, ``that is it, all we received this week``; 1919 theme (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Oct 12 at 2206, no signal from VOT into Ireland SDR; something`s always erroneous at Emirler. Good thing I caught the Letterbox earlier this Sunday on 9750 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004, Oct 13 at 2158, VOT IS & ID, S9/+10 direct, but at 2220 JBM: something`s always erroneous at Emirler. At 2243 into UTwente when measured, music S9+20/30; 2247 multi-lingual ID filler reel, music; 2253 s/off as if 17620 from 1230, awry at Ankara. 2254 IS to 2255.3* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, Oct 14 at 2157, VOT not off the air, S9+20 direct but undermodulated with IS & English IDs. At 2242 into UTwente when measured, S9+30/35. 2252 multi-lingual ID filler reel. 2255 s/off as if it`s 17620 at 1230, awry at Ankara, few notes of IS and chop before 2256*. Still undermodulated as open frequency then blasts. Erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Oct 15 at 2158, no signal from VOT direct in English, nor by 2202; but next check 2217 now it`s on, S9+20/30 direct, music and English. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U S A. 338 MCW kHz, Oct 11 at 0645 UT, RYN, 400 watt NDB at RYaN, Tucson AZ (Glenn Hauser, OK, WOR)

** U S A. 344 MCW kHz, Oct 9 at 0619, ND beacon JA: 400 watts from `Dinns`, JAxonvil FL, per RNA list. One of my furthest domestix, about one kilomile: 1648 km = 1024 mi. Local LW/MW line noise level remains intolerable, but JB low enough to audiblize this as well as Canada, and Puerto Rico, qq.vv. (Glenn Hauser, OK, WOR)

** U S A. 392 MCW kHz, Oct 10 at 0624 UT, FMZ, 25-watt ND beacon is JBA,, `beklof` Fairmont NE.

420 MCW kHz, Oct 10 at 0625 UT, PK, 25-watt NDB at Olathe KS.

420 had always seemed the upper limit of the NDB band in USA, but Hepburn & RNA lists show a few more on 423, 426. See also UNIDENTIFIED (Glenn Hauser, OK, WOR)

** U S A. 383 MCW kHz, Oct 14 at 0639 UT, CNP, 25-watt NDB at ChapPell NE (Glenn Hauser, OK, WOR)

** U S A. 344 MCW kHz, Oct 14 at 0635, mixture of JA and JL, at first tuned to 342 USB. JA is 400 watts from `Dinns` JAxonvil FL, and JL is unknown power from `Lunns` JopLin MO (Glenn Hauser, OK, WOR)

** U S A. 365 MCW kHz, Oct 14 at 0637 UT, AA, 100 watt NDB at `Kenie` Fargo ND but site over in MN; first heard tuned to 363 USB (Glenn Hauser, OK, WOR)

** U S A. 379 MCW kHz, Oct 14 at 0638 UT, DL, 50 watt NDB at DuLuth MN, mixing with RU, 25 watts at Russellville AR, supposed to be RUE. Normally only RU is audible (Glenn Hauser, OK, WOR)

** U S A. 407 MCW kHz, Oct 14 at 0653 UT, AQ, 30 watt NDB at Appleton/Kooky WI, new to me, mixing with HRU, 25 watts at Herington KS, which is normally alone, one of my best and closest (Glenn Hauser, OK, WOR)

** U S A. 521 MCW kHz, Oct 13 at 0657 UT, TO, ND beacon, axually tuned to 519 USB, but listed here as `Biloy`, Topeka KS, 25 watts. Never heard before despite proximity, just PN Ponca City OK constantly on 515 (Glenn Hauser, OK, WOR)

** U S A. 521 MCW kHz, Oct 14 at 0656 UT, TO, 25 watt NDB at Topeka KS (Glenn Hauser, OK, WOR)

** U S A. 28218- CW, Oct 10 at 2205, EEEEE DE WA1LAD/B - WGB list: ``28217.5 WA1LAD/B - West Warwick RI USA FN41fq - #0 (31 Mar 2025) Note: de ID only + eee + K`` - QRZ.com: ``WA1LAD USA flag USA, GILBERT D "Gil" WOODSIDE, III, 285 3rd Ave, Warwick, RI 02888, USA`` (Glenn Hauser, OK, WOR)

** U S A. 28231 CW, Oct 10 at 2207, EEEEEEE NG7I/B slow - WGB list: ``28230.8 NG7I/B - Ritzville WA USA DN07tc - #0 (20 Mar 2025) Note: ID + grid + EEE - Pwr 5w to a Hy-Gain Penet. 500 at 20'`` - QRZ.com: ``NG7I USA flag USA, PATRICK C PADGETT, 704 S Washington St., Ritzville, WA 99169, USA -- NG7I/B beacon is at 28.230.8 Mc running an IC-706 w/Picokeyer at 5w to a Hy-Gain Penetrator 500 at 20'. Send me a QSL and I'll send you one back. No need for an SASE or anything like that. Here's the QSL card for the beacon: {cheesecake sitting on

roofedge holding mast}`` (Glenn Hauser, OK, WOR)

** U S A. 28264 CW, Oct 10 at 2211, EEEEEEEEE DE WB2VVV/B - WGB list: ``28263.5 WB2VVV/B - Foster RI USA FN41cr - #0 (29 Nov 2024) Note: ID + grid + EEE - Pwr 1 Watt to a Horizontal Polarization Omni Ant.`` - QRZ.com: ``WB2VVV USA flag USA, JOHN C "Chris" FAGAS, 57 KENNEDY ROAD, FOSTER, RI 02825, USA --- 28.2635 MHz Beacon operating from FN41cr with 1 Watt to a Horizontal Polarization Omni Antenna. Beacon reports are both welcomed and encouraged!`` (Glenn Hauser, OK, WOR)

** U S A. 28269 CW, Oct 10 at 2212, DE AA1TT/B - WGB list: ``28269.0 AA1TT/B - Claremont NH USA FN33ur - #0 (23 Sep 2025) Note: ID + grid + EEE - Pwr 5w`` - QRZ.com: ``AA1TT USA flag USA, BILLY R MICHAUD, 153A CAT HOLE ROAD, CLAREMONT, NH 03743-4321 USA -- If you would like beacon information (28.269) or would like to give a reception report, (Reports are greatly appreciated, both sky wave & ground wave) Please check: http://www.wx1nh.us (Links on the left)`` - viz.:

``Transmitter - Uniden HR-2510
Transmitter Power (at antenna) - 5 Watts
Antenna - Dipole
Controller - NorCal Keyer Kit
Date beacon commenced operation - October 26, 2004
Operation Schedule - Continuous
Power Supply - Deep Cycle Battery with Charger
The controller is inside of the black box with cooling fans and a Polyphaser in line for protection.
E-Mail reports and QSL's are greatly appreciated and I will reply in the same manner promptly. Please send signal reports to: (my call sign) @qsl.net or You can send a paper QSL or an E-QSL to AA1TT/B - Click here for a link to E-QSL - Thank You in advance! If you would like more information about beacons and the 10 Meter band in general, Please check out Bill, WJ5O's Web Page. 73, Billy`` -- a few among the many other beacons incoming, probably more hotspot New England. Most of them add their gridsquare which I usually don`t copy (Glenn Hauser, OK, WOR)

** U S A. 28230 CW, Oct 11 at 2211, VVV DE N3ERB/B --- WGB list: ``28230.0 N3ERB/B - Sebring FL USA EL97ik -  #0 (07 Nov 2023) Note: VVV × 2 + ID + grid - Pwr 4w`` -- QRZ.com: ``N3ERB USA flag USA, GERALD A MAHONEY, 608 Woodmont Street, SEBRING, FL 33876 -- Constructed 4 watt 10 meter beacon on 28.230 located in Florida antenna is a ringo ranger up 5 feet above ground the transmitter is a Realistic Navaho TRC 30 please send a report to yellowcorvette608@gmail.com subject beacon 73's from N3ERB`` (Glenn Hauser, OK, WOR)

** U S A. 15460: re: Hearing jazz being b/c on this freq. at 1520 GMT with a very strong S9+ sig. into upstate NY. There are reports that VOA Greenville might be testing here and that certainly sounds plausible given the sig. strength. No ann. yet as b/c continues past 1532. John Figliozzi, Halfmoon NY``

Listening Oct 14 from 1554 via Ft Lauderdale SDR, 15460 with jazz S9+5 and now it *is* // 13605 and 11930, so clinched as Greenville / Grimesland. At 1600 jazz continues on 15460 as 13605 & 11930 & 11860 start R Marti programming. At 1655, open carrier on 15460. At 1718, more jazz on 15460, VG S7/S9 into FTL, separate from the three Martís. 15460 off at 1725* (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2315 monitoring: confirmed UT Thursday October 9 at 0130 on WRMI 5010, S7/S9 into NH SDR.

Also confirmed Thursday October 9 at 1636 the 1631 on SW Gold Radio, Germany, 6160.000+, S9+10/15 into UTwente with ACI RTTYditty from 6165

unless narrowed.

** U S A [and non]. WORLD OF RADIO 2316 monitoring: confirmed Saturday October 11 at 1600 on WRMI 9395 from WRN, S9+8 into Knoxville SDR; rough start, going from WRN to `Encore` intro, cut to WOR; also on 7730 but JBA.

Also confirmed Saturday October 11 at 1941 another WRN relay from 1930 via WRMI 9395, S8/S9 into Knoxville.

Also confirmed Saturday October 11 at 1944 UT on WA0RCR, 1860 AM, MO, JB recognizable voice in HNL into N9AZZ remote, improving slightly so I could tell finale to 2004.7, ergo started circa 1936.

Also confirmed Saturday October 11 after 2000 on WRN Europe stream.

Also confirmed Saturday October 11 at 2100 on WRMI 9395; following KBSWR via WRN with Kpop.

Also confirmed Saturday October 11 at 2236 the 2230 on WRMI 15770, S9 into Maryland SDR, but not audible into UTwente where aimed.

Also confirmed UT Sunday October 12 at 0314 already near the end on WA0RCR, 1860 AM, MO, S9+ into N9AZZ IL remote, finishing at 0319.7, so the 0315v started early circa 0251.

Also confirmed Sunday October 12 at 1831 on SW Gold Radio, Germany, 6160 S5/S7 with RTTYditty plus, and 3975 JBA S3 into Carlow, Ireland SDR as UTwente is inaccessible.

Also confirmed Sunday October 12 at 1902 on IRRS SW via AM Italia, 1322.995, VG S9+12 into nearby Noale SDR. Next:

2100 UT Sunday WRMI 15770 to NE;
2300 UT Sunday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2316 monitoring: confirmed Sunday October 12 at 2000 on WRN Europe stream.

Also confirmed Sunday October 12 at 2100 on WRMI 15770, S6/8.5 into Ireland SDR, S9+5 into Maryland SDR.

Also confirmed Sunday October 12 at 2300 on WRMI 9395, S8/9+10 into Maryland SDR.

Also confirmed Sunday October 12 at 2330 on WRMI 9455,S9+10/18 into Maryland SDR, immediately after `Sandunga` fill music, no ID.

Also confirmed UT Monday October 13 at 0030 on WRMI 7780, VP S8/S9 into Brownsville TX SDR but S9/+10 into Maurice LA.

Also confirmed UT Monday October 13 at 0300 sharp on Area 51 webcast, not checked on WBCQ 5130 which would be signing off. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2316 monitoring: confirmed Monday October 13 from 1931.7 on SW Gold Radio, Germany, 3975.001-, S9/+5 into UTwente; and 6159.999+, S9/+10 but JBA with RTTYditty on plus side.

NOT confirmed UT Tuesday October 14 at 0330 on WRMI 7780: instead, ``halleluyah`` from an unknown gospel huxter in English. Partially updated skedgrid still shows Wavescan at this slot, altho WOR had really been airing for many months!

Checking the entire WRMI skedgrids, I see a new previously unknown WOR time which will need confirmation: Saturday 1530 UT on System B 9955. That happens to be just before Sat 1600 on 9395 & 7730 from WRN.

Also UT Monday at 0030 on System D 7780 as before, but also: UT Monday 0030 on System K 9455, to be confirmed. Next:

1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2316 monitoring: confirmed Tuesday October 14 at 1300 on WRMI 9955, S9+10/25 direct but vs HNL.

Also confirmed Tuesday October 14 at 1400 on WRMI 9955 but JBA by now.

Also confirmed Tuesday October 14 at 2000 on IRRS SW via AM Italia,

1322.995+, S9 into UTwente. Next:

2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2316 monitoring: confirmed Tuesday October 14 starting at 2332 on SW Gold Radio, Germany, 3975.002, S7/S9 into UTwente.

Also confirmed UT Wednesday October 15 at 0030 on WRMI 9395 after `Everglades` ID, S9+5/10 into Maryland SDR.

Also confirmed Wednesday October 15 from 1931.7 on SW Gold Radio, Germany, 3975.001+, better than 6160.000 at S9+5 with RTTYditty on plus side.

Also confirmed Wednesday October 15 at 2100 on WBCQ 7490 -66 Hz = 7489.934, S8/9+5 into Maryland SDR.

Also confirmed Wednesday October 15 at 2330 on WRMI 9395, S9+10 into N9AZZ IL remote. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Financial support for this non-commercial program appreciated by MO or check on a US bank to: Glenn Hauser, P O Box 1684, Enid OK 73702.

One may also contribute via PayPal, not necessarily in US funds, to woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. WTWW: George McClintock explains Oct 9 the delay in getting 5085 & 9475 back on the air. An expensive relay needs to be replaced. One was ordered but never shipped. Another one didn`t work and blew out. Some problem with a third one, now expecting a fourth one to get back on air by next week. On the other transmitter the spurblobs were caused by dirty contacts, which he cleaned up fixing that, for now (Glenn Hauser, OK, WOR)

** U S A. 9890, Oct 11 at 2219, approx. peak of splatter from 9930 WTWW where it`s overmodulatedistorted; splat range down to 9870 and above 9900 but not so much on plus side. I notified George and he replied that could not see any of that on his new spectrum analyser three hours earlier (Glenn Hauser, OK, WOR)

** U S A. 9885/9995, Oct 13 at 2222, range of at least light splatter out of 9930 WTWW TOMBS (Glenn Hauser, OK, WOR)

** U S A. Re: ``Blob was also present on approx. 9680 khz at 1400 UT past 1415 but gone by 1500. (W) hat in  (T) he  (W) orld is  (W) rong at WTWW? Tony Pavick, Hope BC``

I first heard this at 1443 Oct 14 covering 9672-9683, peaking about 9681, S9+30 while 9930 only S9 and JBM with BS. I notified George ASAP and urged him to turn it off. Next check at 1513 the blob is peaking instead about 9785 covering 9778-9788. Notified George again. Still there at 1528. Via Maryland remote, obviously Brother Stair if tuned in NBFM mode!

At 1536 UT modulation stops, but huge signal still on 9785 and weak clear 9930. At first it was centered slightly on the plus side of 9785, then slightly on the minus side. Still on at 1553 but silent.

Finally turned off at 1626* and by 1640 not heard direct anywhere else on 9 MHz band, 9930 also off. We should be on the listen-out for such showing up again somewhere below 9930.

By 1805 UT check, 9930 is back on, only S9/+15 direct and NO blobs. Also see this:

``Last month (Sept. 13) I picked up a similar blob of distorted audio at 1410 UTC, centered approx. on 9724 kHz, although it was drifting around in frequency. This also turned out to be WTWW (with a shouting Brother Stair program), but it was transmitting in FM mode, or at least it was best received with my radio in FM mode. Very strong signal and parallel to 9930 which was much weaker. I also checked several online SDRs to make sure it wasn't my rig and it was well received right across North America and down into Mexico. Very odd. I wondered if someone was trying to rebroadcast the WTWW transmission. John Hudak, Ontario`` (Glenn Hauser. OK, WOR)

** U S A. 9330, Oct 10 at 1418, no signal direct from WLCR/WBCQ, nor at 1622 into Maryland, UTwente SDRs; what`s wrong? But on by 1845, S9+10/20 into Maryland SDR; 1955 off again for rotation (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Oct 10 at 2355. Into NH remote: no signals on 3265, 5130, JBA China? 6160, 7490 -64 Hz = 7489.936 FKB, 9330 off for rotation until *2359. But at *2357 on comes 5130 -86 Hz = 5129.914 with IS & ID loop S9/+10. Oct 11 at 0000, 7490 announces this originally aired Oct 3, 2025 = only last week, never mind. By now, 9330 also on it, while at 0001, 5130 is still running the IS loop as WTO theme is playing too. 6160 also now on with AAAWWW; 3265+ still off (Glenn Hauser, OK, WOR)

** U S A. 9955, Oct 14 at 1640, WRMI is still on, JBA direct. Supposed to quit at 1600. At 1658 into Maryland remote, music at S6, 1659 WRN ID and then off* (Glenn Hauser, OK, WOR)

** U S A. 17790, Oct 14 at 0027, WRMI-7 still on, very weak into Maryland SDR, VG S9/+15 into Bonaire at 0030 with Slovakia in Spanish. Skedgrid now dated Oct 15 shows System H on 17790, 160 degrees toward S America: 2200 Taiwán Spanish, 2230 Soteriah Intl, 2300 Prague French, 2330 Prague English, 0000 Praga Spanish, 0030 Eslovaquia Spanish, 0100 Taiwán Spanish, 0130-0200 Slovakia English. The pink System H sked, however does not show 17790 *at all*, but mostly same lineup on 15770 and/or 7730 and/or 5850 and/or 5010. Daily with some exceptions such as at 2230 Sat WOR, Sun Wavescan (Glenn Hauser, OK, WOR) see also TAIWAN [non]; POLAND [non]

** U S A. 7505, Oct 11 at 0119, no signal from WRNO; seems I have not noticed it all lately during the 01-04+ UT schedule. Has anyone? (Glenn Hauser, OK, WOR)

** U S A. 7505, Oct 13 at 0420, WRNO not off the air; still on at 0506, praise song in English? S9+40/50 direct (Glenn Hauser, OK, WOR)

** U S A. 770, Oct 14 at 0658 UT, `The Other Side of Midnight` keeps going right up to 0700 ID for WABC and several other stations. Still can`t hear KKOB (Glenn Hauer, OK, WOR)

** U S A. 780, Oct 15 at 0642 UT, after `StarDate` from 0640, WBBM timecheck as ``45 past the hour``; and at 0643, ``46 past``, i.e. 3 minutes fast. This seems to be routine night after night. Altho local

Chicago weather, traffic, etc., sound live, I guess this be all automated, and misprogrammed. Don`t you believe the WBBM clock! Are wrong times habitually uttered elsewhen? (Glenn Hauser, OK, WOR)

** U S A. 920, Oct 15 at 0712, KYFR hymn S9+40, owning the frequency as usual, direxional thisaway from site SE of Omaha, almost to the MO border in SW corner of IA. NRC DX News Oct 21, published Oct 13: ``920  KYFR IA Shenandoah – Using U1 600/600 since Sept. 16, phasor problems`` – Apparently this be already passé. Not paying much attention to gospel huxters, but I think it had been much weaker lately. Normally it`s U4 5/2.5 kW with major lobes day and night SSW thisaway. Omaha is within both day and night local coverage contours. Daytime fringe extends to SE corner of SD and to Wichita KS, but inaudible by Enid (Glenn Hauser, OK, WOR)

** U S A. {originally:} UNIDENTIFIED. On Oct 11 from 0445, I posted to four DX lists including WOR iog:

``First at 0425 UT Oct 11 in a bandscan I am not getting *any* TA carriers, but there is a big one on 1431 which much be closer, not only direct, but on a remote in MO I just checked, so it`s not local to me. Please check out. I imagine there may be some modulation/music on it?

I should add that unlike several weeks ago there is no match on 1469 implying spurs out of a 1450, which was never traced. Nor any other plus/minus 1 kHz carriers in top half of MW band.

Around 0500 I`ve DF`d it on the handheld DX-398 to roughly east/west from Enid or slightly counterclockwise from that.

At 0520 UT, KFS SDR SE antenna on west coast is not getting it but NA5B remote in Maryland certainly is, clear line on the waterfall. 73, Glenn Hauser, Enid OK``

A few replies about this:
0514: ``Nothing on 1431 from a Kiwi SDR from Ethiopia. Roy Barstow``

``MWLIST says the 1431 Djibouti station is inactive. Even if still alive, 0400 UTC should be post-sunrise there by about an hour.
http://www.mwlist.org/mwlist_quick_and_easy.php?area=1&kHz=1431
https://www.timeanddate.com/sun/djibouti/djibouti

I do note a 1431 carrier in both 0100 and 0400 UTC captures. Interestingly there is a slight frequency difference (see below) so I'm not sure if the same station is involved both times.
Inline image
{at 0100 on 1,431,000.000 Hz; at 0400: on 1,431,001.066 Hz}

Here at 0400 UTC I see on nearby channels 1413 Spain and 1422 Algeria.

Just checked the Mandeville, LA SDR at 0555 UTC and it is showing there.
http://21118.proxy.kiwisdr.com:8073/

Also present at Elizabeth City, NC
http://kiwisdr.ku4by.com:8073/

and Bermuda
http://21778.proxy.kiwisdr.com:8073/

Still showing here a bit but not on Bonaire SDR. Very late reception time pretty much takes TA out of the game. Cuba maybe?
Mark Connelly, WA1ION | South Yarmouth, MA, USA | FN41vq``

0622: ``I'm in Ukraine at the moment, Glenn. I did check my Masset SDR at 0620 and nothing noted. Walt`` Salmaniw

My final check at 0620: still a line on the NA5B waterfall, JBV, looks like about to fade out.

Of course, the only conceivable TA on 1431 would be the 600 kW VOA relay in DJIBOUTI, but this signal is staying in way too late for that. It is anyway believed to be silent thanks to Trump, and when active it was not on air after 0100. DF would seem to rule out Cuba, but of course they are prone to shifting one kHz above correct frequencies, like 711, 1141. And NO Cubans are listed on 1430 nor adjacent frequencies.

I wish people east of me would check not only next night but in daytime for any carrier on 1431 (Glenn Hauser, OK, WOR)

** U S A. 1431.0 kHz, Oct 11 at 2235 UT, the mystery carrier is already audible at Maryland remote. By 0148 Oct 12 I`m hearing it direct, and at 0205 I DF it again on the handheld DX-398, concluding that it is due east from Enid. That would be TN or NC, or maybe closely neighboring states. Try various remotes in TN, some getting it in Nashville, but very weak. Into KK4OVW, it`s somewhat separable at 0250, music on 1431, talk on 1430, so I wonder if it`s WYGI Madison TN.

I encourage others to chase it. See these threads:
https://groups.io/g/IRCA/topic/115701155
https://groups.io/g/IRCA/topic/115711388
https://groups.io/g/IRCA/topic/115713830

Ultimately: ``WYKG, Covington, GA, hip hop and techno weakly here in ECFL at 0330+ Z, parallel their webfeed. -- David E. Crawford, Indian River City, Florida Libre``

That`s in northern GA, just ESE of Atlanta, close enough to my DF. WYKG is U1 3900/212 watts. So I try closest remotes to that. Athens is getting it. So by daytime at 1506 I try that again: yes, two lines on the waterfall, but there, 1431 is stronger than 1430. Then, Eatonton GA SDR: 1431 *only*, not 1430, but nothing audible.

Mike Cooper, near Atlanta, at 1554: ``believe it is Covington, Ga. I have daytime reception of the 1431 carrier (with faint audio) from my location, about 30 or 40 miles away``

My question is: how could a station accidentally transmit 1 kHz off-frequency, punch-up error? Or why would they do it deliberately? If FCC still operated a monitoring station at Powder Springs GA, it might have noticed (Glenn Hauser, OK, WOR)

** U S A. 1431 kHz, Oct 13 at 0143 UT, both Athens GA and Eatonton GA SDRs show a very weak line on 1431, beside a stronger one on 1430. At 0450 direct, I still hear the het from WYKG, Covington GA (Glenn Hauser, OK, WOR)

** U S A. 1431 kHz, Oct 14 at 0709 UT, het from off-frequency WYKG Covington GA still audible (Glenn Hauser, OK, WOR)

** URUGUAY [and non]. 28430 USB, Oct 15 at 2211, CX7RM, Spanish contact with KP4OMR, also audible but weaker. QRZ.com:

``CX7RM Uruguay flag Uruguay, Pablo Goldaracena Sommaruga, Pinares Calle Sagitario, Punta del Este 20005, Uruguay`` lots of antenna, equipment photos, family, pets, vistas.

``KP4OMR Puerto Rico flag Puerto Rico, FELIX O MARTINEZ, HC 01 BOX 4058, UTUADO, PR 00641, USA [sic]. His page is crammed with certificates, or ``diplomas`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 272 MCW kHz, Oct 10 at 0620 UT, JBA carrier. RNA list shows possibles by proximity and recent activity: LD, Lubbock TX, 25 W; OLY OLneY IL 25 W; FK, Fort Campbell KY 25 W. FK not in dxinfocentre.com (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 770, Oct 13 at 0701 UT, familiar Brazilian tune mixing with WABC; checking for KKOB, still inaudible here under current low-power STA (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 981.78, Oct 13 at 0455, JBA carrier hetting 980.0; not clear yet whether local or DX. Anyone else hearing it? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1360.28, Oct 9 at 0604 UT, JBA mystery carrier hetting 1360.0 (Glenn Hauser, OK, WORLD OF RADIO 2316)

UNIDENTIFIED. 6938 AM, Oct 11 at 0417, JBA music presumed pirate. No such logs in HFUnderground (Glenn Hauser, OK, WOR)
